

RESCUE PARTIES  
ON THE ROADLooking for Victims of Fires  
in Minnesota.

## LOSS OF LIFE NOT KNOWN

Impossible at Present to Determine the Exact Number of People Who Perished in the Fires That Swept Through the Woods of Northern Minnesota.

Baudette, Minn., Oct. 11.—It is now three days since fire devastated the strip of timbered country fifty miles wide between Warroad and Stratton, but as yet only a handful of home-standers and settlers have come out to the tracks.

In view of the fact that four entire families have been found dead within a few miles of the place and that they were only discovered in a haphazard way, the situation is doubly more alarming. There is no doubt that the entire district was swept clean, and it seems strange that the inhabitants, if alive, have not as yet sought refuge.

Four teams are working south along the trails, a dozen axmen cutting a road through the fallen timbers, and the county sheriff has sent out a party of experienced woodsmen on foot, with instructions to penetrate as far south as they can and report the conditions, both as to loss of life and condition of the fire.

Every settler who has yet come in tells of the narrow escape of himself and family, which adds to the apprehension that is felt by every one.

Chris Thompson, who, with his wife, lay in the Winter River road for three hours, while the fire passed over their heads, says that he distinctly heard several people shouting excitedly, the voices seeming to come from every direction. This, he said, unnerved him more than did the fire.

Perhaps the most tragic story of death that has yet been brought here was related by S. Larson, who has a claim fourteen miles south of the Baudette river. He saved his life by lying in the water half the night. It was Larson who first discovered the bodies of Edward Boulien, his wife and seven children. They lived quite close to his house, and he saw the bodies from the trail. The sight was shocking.

## Entire Family Perished.

In the center of a plot of open ground before what had been their home the entire family was huddled together, their clothing partially burned off, the hair burned and the bodies charred and blackened, except where they had been protected from the furnace heat of the fire. The family consisted of a boy about one year old, the oldest boy, about seventeen, and four little girls, Agnes, Evelyn, Judith and Hildegarde. Every sign pointed to the fact that the family first took refuge in a small earth root-house and it is thought that, becoming suffocated with the heat, they rushed out to the center of the open space. The father had his arms about three of the girls when they found him and the position of the family indicates they were enveloped in a sheet of flame. They were about 200 feet from the timber through which the fire approached.

William Boulien, a son, aged twenty-three years, who had a claim of his own, escaped by standing in the river. The family moved from New Richmond about three years ago and is survived by three other daughters, who are employed in Minneapolis.

A road is now being cut to where the bodies are and they will be brought into Baudette.

Larson, who brought the news, says that Hulver Johnson and Emil Peterson saved themselves, the one by getting down a well and the other by running a backfire.

A man named Hoff, who has a home-stand on the Baudette river, one and a half miles from here, saved an aged man named Hilden, who was bent on staying with his home. He was obliged to fight the old man and forced him to take refuge in the river.

Hoff and his wife also stayed in the water and escaped.

## Took Refuge in River.

August Schaefer, who drove his team into the Winter Road river and stayed there for three hours with his wife, enduring the most severe heat, tells of a man named Mike Sawa, who, with his nine children and a boy named William Lebudia, endeavored to escape down the river in a boat. They held wet blankets over their heads and the heat was so intense that it scorched and blistered the paint on the boat. When the boat reached the place where Schaefer was standing the boy, Lebudia, was unconscious and the family was exhausted and almost overcome. They were helped into the water and remained there until the fire had passed.

It is reported from the town of Wadena, one mile south of here, that a woman is missing. An unidentified child was found in the school yard at Spooner.

Alexander Watts, aged forty-seven, who lives three miles west of Baudette, was brought here by a train crew with one leg badly burned. He was lying in the water with his head

protected by a wet coat and left his leg exposed.

with few exceptions all who were saved and have come here, protected themselves by keeping under water or by staying in a well. There are only four streams running through the burned district and only a small percentage of the people lived near them. In the country to the south of here, where it is supposed many persons perished, the roads are all covered with a tangle of fallen timbers, which will have to be cut through before teams can proceed.

The bodies of fourteen people, who comprise only two families, have been brought to Baudette, and the statement of a man who walked twenty miles from Rapid river that he counted nineteen bodies along the road, is taken as significant that very few settlers have come from the burned district where hundreds are known to live, and it is certain they are dead or in great distress, for it is impossible that their frame houses are left standing.

ESTIMATED AT TEN  
MILLION DOLLARSProperty Loss From Fires in  
Minnesota.

St. Paul, Oct. 11.—Following is a summary of the fire situation in Northern Minnesota:

Property loss estimated at \$10,000,000.

Number of known dead seventy-five. Total deaths, it is believed, will reach 500.

Five hundred square miles of nearly virgin timber laid waste and homes of thousands of settlers destroyed.

Relief trains rushed to the devastated region from St. Paul, Duluth and Bemidji.

Governor Eberhart cancels all engagements to accompany St. Paul's relief party.

Red Cross society of state receiving funds for the relief of the homeless, penniless settlers.

Crookston, Minn., sends carload of provisions and Great Northern railway police all bridges on its line to Warroad. Special water trains sent to the front.

Thousands of survivors fill towns within easy reach and many are cared for by charitable institutions and subscriptions.

Ranier, a village near International Falls, wires Governor Eberhart for assistance, saying town is surrounded by flames.

Baudette and Spooner residents already plan to rebuild as one town.

State troops arrive at Baudette from Bemidji to preserve order. Soldiers were accompanied by physicians.

One hundred and ninety typhoid fever patients at Baudette saved from horrible deaths.

## Icehouse is a Morgue.

Icehouse at Baudette converted into morgue containing bodies of Broten and Goffin families.

Funerals of many victims will be held at once.

Fate of towns of Williams and Roosevelt still unknown.

Warroad safe as yet, but flames threaten.

Three thousand persons are homeless and destitute.

Later accounts increase horror of situation.

Hundreds of fugitives reach Winnipeg.

Great deal of vandalism reported rife in stricken towns.

Thrilling tales of refugees describe terrible calamity that has overtaken the homeless.

Town of Kelliher has been temporarily saved from flames, it is believed.

Big fires reported near Bagley and Clear Brook.

Bagley high school boys form companies to respond to instant call.

One hundred refugees, penniless, arrive in Bemidji.

Private message to Minneapolis and International railroad officials says 300 charred bodies must be taken care of at Rainy River within forty-eight hours.

Inhabitants of Salol, Minn., near Warroad, driven out by flames.

## CITY IS MENACED BY FIRE

International Falls in Danger of Destruction.

Fort Francis, Ont., Oct. 11.—Forest fires threaten International Falls, having 2,000 population, across the river from Fort Francis. Several fires have been burning near International Falls for thirty-six hours, and a high wind would sweep the fires into the city. A force of about fifty men worked all night, but were unable to extinguish the fires. Rushing from one spot to another, they were able to make the city safe in any threatened quarter, and fires repeatedly broke out immediately behind them.

Mayor Berg wired the governor of Minnesota for military aid, as there are not enough available men there to adequately protect the city.

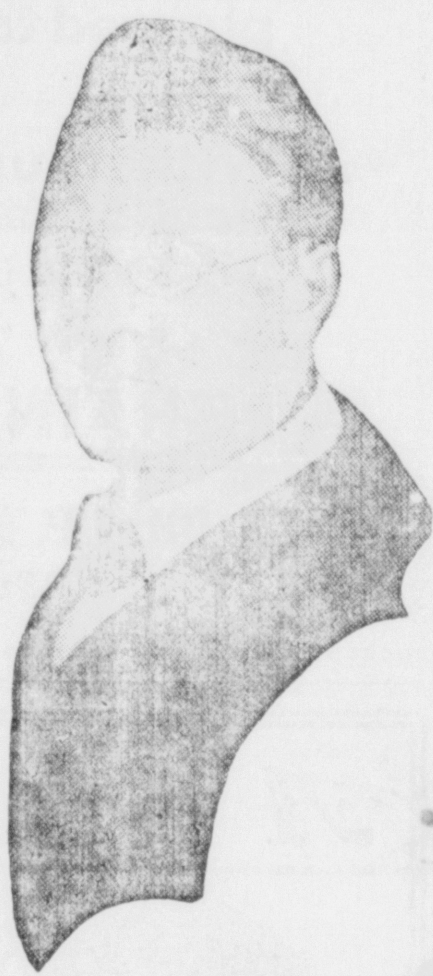

Little Willie—Pa. what does this paper mean by saying it was a fruitless search?

Father—It probably applies, my son, to the quest of some man who was looking for pineapples on a pine tree.

—Chicago News.

## MAYOR SEIDEL.

John Deitz Asks Him to Obtain a Good Lawyer.

## ENLIVEN THE CAMPAIGN

Decision of North Dakota Court is Popular.

Grand Forks, N. D., Oct. 11.—No decision by the North Dakota supreme court in recent years has had such a peculiar effect upon the political situation of the state as has the decision by which the 30 per cent clause of the primary election law is declared unconstitutional. The decision has had the effect of placing a full Democratic ticket in the field, whereas there had previously only been two candidates in addition to the railroad commissioners and the candidates for governor and lieutenant governor.

In addition to the candidates on the state ticket the decision has also had the effect of placing on the ballot the names of about 150 candidates for various county and legislative offices over the state. It will put new heart into the Democratic campaign, as with a full ticket in the field it means that more men will be in the stump.

From both camps of the leading political parties in the state have come expressions of approval at the decision of the supreme court. It means that the Republican central committee, which has heretofore been compelled to labor for the election of one or two candidates, with the other candidates on the ticket having no opposition, will now have the united support of every one of the state candidates. It means that all of them must go to work.

## Desolate.

Lawyer—Am I to understand that your wife left your bed and board? Uncle Ephraim—Not exactly, boss. She dun tuk mah bed an' bo'd along wif her—Puck.

"Fight today's temptation as it comes" is good advice. And if it seems to be only trifling fight it is harder.

## RESULTS ON THE DIAMOND

## National League.

St. Louis, 15; Chicago, 7. Philadelphia, 8; New York, 2.

## GRAIN AND PROVISION PRICES

## Minneapolis Wheat.

Minneapolis, Oct. 10.—Wheat—Dec., \$1.08½@1.09½; May, \$1.12½. On track—No. 1 hard, \$1.11½; No. 2 Northern, \$1.10½@1.11½; No. 2 Northern, \$1.08½@1.09½; No. 3 Northern, \$1.03½@1.06½.

## Duluth Wheat and Flax.

Duluth, Oct. 10.—Wheat—To arrive on track—No. 1 hard, \$1.11½; No. 1 Northern, \$1.11½; No. 2 Northern, \$1.08½@1.09½; Dec., \$1.10½; May, \$1.13½; Oct., \$1.10½. Flax—To arrive, on track, Oct. and Nov., \$2.65½; Dec., \$2.61½; May, \$2.58.

## St. Paul Live Stock.

St. Paul, Oct. 10.—Cattle—Good to choice steers, \$5.50@6.00; fair to good, \$4.75@5.25; good to choice cows and heifers, \$4.25@4.75; veals, \$6.50@7.75. Hogs—\$8.00@8.60. Sheep—Wethers, \$3.25@4.00; yearlings, \$4.25@4.75; spring lambs, \$5.50@6.25.

## Chicago Grain and Provisions.

Chicago, Oct. 10.—Wheat—Dec., 97½c; May, \$1.03½@1.04½; July, 98½c. Corn—Dec., 49½c@49¾c; May, 52½c@52¾c; July, 52½c. Oats—Dec., 32½c@32¾c; May, 35½c; July, 34¾c. Pork—Jan., \$17.25; May, \$16.55. Butter—Creameries, 24@28c; dairies, 23@27c. Eggs—18½@25½c. Poultry—Turkeys, 17c; chickens and springs, 11½c.

## Chicago Live Stock.

Chicago, Oct. 10.—Cattle—Beef, \$4.75@5.00; Texas steers, \$4.25@5.65; Western steers, \$4.15@6.75; stockers and feeders, \$3.40@5.75; cows and heifers, \$2.25@6.50; calves, \$7.50@10.00. Hogs—Light, \$8.30@8.85; mixed, \$8.05@8.85; heavy, \$7.90@8.75; rough, \$7.90@8.10; good to choice heavy, \$8.10@8.75; pigs, \$8.00@8.80. Sheep—Native, \$2.50@4.35; yearlings, \$4.35@5.50; lambs, \$4.50@7.15.

NEW CHARGE  
AGAINST DEITZ

He Is Said to Have Violated the Game Laws.

## WIRES TO MAYOR SEIDEL

John F. Deitz Asks Mayor of Milwaukee to Obtain Competent Counsel to Defend Him and Gives the Preference to Attorney Clarence Darrow of Chicago.

Chippewa Falls, Wis., Oct. 11.—Five game wardens passed through here en route for Winter to make a seizure of five deer carcasses found in John Deitz' storehouse at Cameron dam, following his surrender.

The game wardens were instructed to prepare formal charges against Deitz for violating the game laws.

Deitz, when asked by a deputy why he had so much venison, replied he was rushed overtime to keep a supply of jerked venison on hand to present to the newspaper correspondents who visited his home.

Hayward, Wis., Oct. 11.—John F. Deitz sent the following telegram addressed to Mayor Emil Seidel, Milwaukee:

"Please get me competent attorney, Clarence Darrow preferred. Advise me as soon as possible."

"I have received the telegram from Deitz," said Mayor Seidel at Milwaukee, "and I shall take the matter up with Mr. Darrow at once to find out whether he can take charge of Mr. Deitz' case."

The hearing of John Deitz was postponed because District Attorney Davis is in Winter attending the inquest over the body of Harp.

## ROW IN THE DEITZ FAMILY

John and Leslie Refuse to Talk to Clarence.

Hayward, Wis., Oct. 11.—There is a row on in the Deitz family. The father and Leslie refuse to speak to Clarence because Clarence surrendered so easily when held up by the deputies a week ago Saturday. When Deitz arrived in Hayward he was placed in a cell beside his son Clarence, but would not speak to him because the boy surrendered without shooting at Madden when shot at from ambush.

The cabin now is in charge of Chester Colpich, Fred Lambert and William Forcier.

John Deitz' wound is trivial, Dr. Zeigler, who dressed it, says, and states that it is simply a flesh wound under the thumb. Leslie still appears defiant.

John Deitz and Leslie are in cells on the ground floor of the jail and Clarence is on the second floor. Mrs. Deitz occupies a room on the second floor in the women's tier. She is bitter toward the sheriff and those who made the arrests. Helen and John, Jr., are in the residence part of the jail, under the care of Mrs. Madden.

## HAY SENDS OUT A LETTER

Would Hold Another Conservation Meeting.

Seattle, Oct. 11.—Governor M. E. Hay of Washington, who has been itching to say something to his Eastern conservation friends ever since he returned from the meeting in St. Paul, has sent to the governors of the Pacific coast and mountain states letters asking their views on the advisability of holding another conservation meeting.

No date or meeting place has been suggested. The letter follows:

"Mr. Dear Governor—I desire to call your attention to the treatment accorded the representatives appointed by the governors of the Pacific coast and the Rocky Mountain states to the so called conservation congress by the officers and those in charge of that congress.

"I deem it of sufficient importance to urge upon you the advisability of arousing the people of the states where over 98 per cent of the national resources are located, to the fact that there is a clique in this nation composed of men who are trying to usurp the prerogatives of the people of the Western states and divert the revenues from the natural resources from the state treasuries to the federal treasuries.

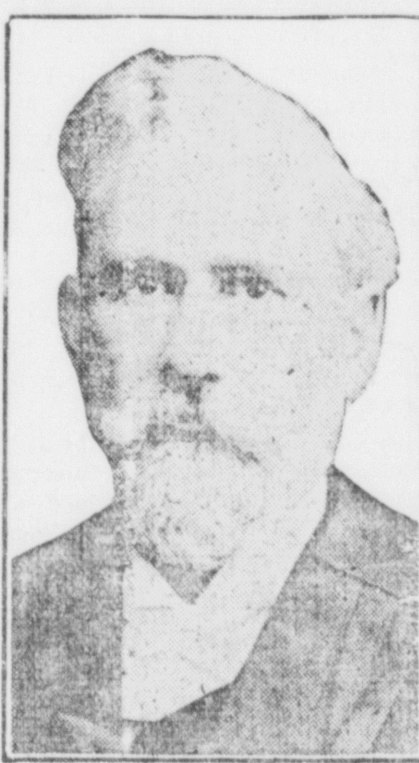

"I should be pleased to hear from you concerning these matters and given your ideas as to what action, if any, should be taken. If you believe a meeting representative of the West should be called to discuss this question, when and where? How should the delegates be chosen and how large a representation would you suggest?"

## Letters by Telephone.

Sunday in London has hitherto been unlike Sunday anywhere else—even in England—by reason of the total absence of mail delivery. Londoners do not expect and do not get letters on Sunday morning. But to fill the gap a special telephone service has been established by the postoffice, which undertakes to telephone to the addressee on Sundays letters which are prepaid for that purpose. In addition to the ordinary postage a fee of three pence (6 cents) is charged for every thirty words. Only telephone subscribers, of course, can have their Sunday letters delivered in this way.

## JUDGE SANBORN.

Hears Argument in the Merger Suit at St. Paul.

## DECLARES HIS WILLINGNESS

Roosevelt Says How He Might Run for President.

Atlanta, Ga., Oct. 11.—"By George, if I thought I could carry a single Southern state I would willingly run for the presidency."

Colonel Roosevelt made that statement in the presence of Mayor Maddox and other members of the reception committee which escorted him through Atlanta's crowded streets.

As the procession moved along, with the colonel bowing his acknowledgments to the thousands on either side, Mayor Maddox told Mr. Roosevelt that he had lived in Atlanta all his life and that the crowd was the largest he had ever seen massed on the streets on any occasion.

"You see, Colonel Roosevelt," added Colonel Fred J. Paxton, president of the Atlanta Chamber of Commerce, "what the people of Atlanta would do for you if you gave them a chance."

With manifest enthusiasm, the former president then made the remark quoted above.

"I regard it as unfortunate," said Mr. Paxton, "that the matter reached the newspapers, as Colonel Roosevelt was the guest of the city, and I considered his statement, made in his usual enthusiastic manner, as confidential."

DEADLY GAS FUMES  
STOP RESCUERSFrustrates Attempts to Save  
Entombed Miners.

Starkville, Colo., Oct. 11.—As darkness settled over the entrance of the Starkville mine, the hope that had buoyed up the watchers at the pit mouth throughout the day, that some of the fifty or more men entombed there would be found alive, grew faint, and gloom settled again over the silent crowd.

The experts at the head of the rescue party were confident that some of the men walled in by Saturday night's explosion were alive. They believed that the portable fan forcing pure air into the workings would keep the men in the extreme southern portion of the mine alive until they could be reached, but as the day rescue party stumbled slowly out of the slope one glance at their faces told the watchers that hope was almost vain.

After a day of hard work in the face of constant peril, the rescue party penetrated the mine workings nearly 12,000 feet, or within 900 feet of the men imprisoned nearest the main entrance. Instead of finding the mine clear of debris and after-damp at this point, the workings were found to be badly wrecked, and poisonous gases were encountered. The leaders would not consent to the rescuers going further until sufficient fresh air had been fanned into the mine to insure safety. It was decided to retreat to the open, leaving the portable fan going until the interior of the mine was freed of deadly after-damp.

## Nelson Defeats Dale.

Kansas City, Oct. 11.—In his first fight since Ad Wolgast stripped him of his championship laurels, Battling Nelson here won from Monte Dale of Denver, after three rounds of fighting. At the beginning of the fourth round Dale's seconds threw up the sponge in order to save their man from a knockout.

## Child Swallows Strychnine.

Ogden, Ia., Oct. 11.—Strychnine pills which she found and swallowed while playing about the house probably will cause the death of Ruth Clark, two years old, the daughter of Mr. and Mrs. Parker Clark.

## CLEMENTSON IS DESTROYED

Town East of Baudette Wiped Out by the Flames.

Brainerd, Minn., Oct. 11.—Clementson, a settlement of 200 people ten miles east of Baudette, has been destroyed by fire. Fires are working east along both sides of the Rainy river toward Fort Francis and International Falls. Both of these towns are enveloped in clouds of smoke.

APPEALED TO  
THE PRESIDENTCHICAGO PLANS ISLAND  
TO BE BUILT OF REFUSE.

Lake Michigan Resorted to as Solution of Dumping Problem.

What will Chicago do with its street sweepings, ashes and other rubbish a few years hence?

That is the question which is puzzling those who have charge of the disposition of the city's waste. Within three years, it is estimated, every clay hole and abandoned quarry in the city will be filled. Suitable dumping places are becoming scarce. Soon all will have been utilized.

Several plans for the disposition of the city's refuse after all holes have been filled have been discussed. Among them are:

The burning of all rubbish and waste matter.

The filling in of excavations or low places outside the city limits.

Construction of an island in Lake Michigan.

Building an island in the lake is an idea formulated by Robert M. Cochran, acting superintendent of streets. He declares that it could be done easily.

Rikers Island, in the East river, opposite One Hundred and Thirty-eighth street, in New York, was built of the city's refuse. An addition of 173 acres is now being made, and when it is completed it is estimated that the "made island" will be worth \$2,000,000. Mr. Cochran thinks such an island should be built in the lake and transformed into a park.

"The problem of disposing of the city's refuse is getting to be serious," said Charles L. Smith, assistant superintendent of streets. "Chicago will be facing a big problem in a few years. I took an automobile trip around the city a few days ago in a search for suitable dumping grounds, and I found that they are very scarce."

In the outlying districts ashes gathered in the alleys during the winter are used in the construction of new streets. Filling of the lowlands in the Calumet lake industrial plant district may be considered when all clay holes have been utilized.

## FLOGGING TO BE RENEWED.

Paris Turns to Cat-o'-nine-tails to Stop Apache Epidemic.

Paris is shuddering at the almost unprecedented wave of crime sweeping over the city. The so called "Apaches," or thugs, dominate the poorer quarters of the city, and they have no fear of the police or of prison sentences. The laws against carrying arms are ignored, and men and boys in the underworld of Paris seem to be as quick as the old time American bad man to whip out a revolver to revenge a fancied slight.

In this extremity the authorities are even considering a revival of the cat-o'-nine-tails, as they have revived the guillotine. Flogging was used effectively in the French penal colonies several decades ago and also in England, but was abandoned in the face of public sentiment. Leading newspapers, supported by several senators and deputies, now assert that flogging is the only means of checking the Apache crimes.

## WOMEN TRAIL THE KAISER.

Resent Lecture on Duties and Civil Statistics of Labor.

The Kaiser stirred up a hornets' nest when he took to lecturing the women of his country on the duties they ought to perform in life. His Königsberg speech has provided the suffragists with powder and shot. The Kaiser is accused of having revived antiquated notions which would not be accepted now by the exemplary woman he cited, Queen Louise, were she living today.

How would the industrial interests of Germany fare if they were not supported by 9,000,000 working women? ask the feminist leaders. Some newspapers which ignored the suffragist movement before the Kaiser delivered his speech are now supporting the women's protest.

## AVIATORS TO CARRY MAIL.

Madagascar Begins Plans for Aerial Postal Service.

Flying postmen probably will be employed for the first time in Madagascar. M. Picque, governor general, is negotiating with the president of the French National Aerial league for the organization of an aeroplane mail service.

Antananarivo, the capital, will be linked with towns 250 miles distant which can be reached by letter now in eight days. The distance can be traversed by aeroplane in six hours.

The military commandant at Madagascar now is engaged with the delegates of the league in studying the country to be crossed.

## Coal Miners' Capacity Increases.

The output of coal per man employed in the Welsh mines has varied in the last five years from a minimum of 246 tons in 1903 to a maximum of 271 tons in 1906.

## Germany Leads in Toys.

Germany's toy trade aggregates \$20,000,000 annually.

## Railroad Attorneys Asked Dismissal of Case.

## TAFT DECLINED TO COMPLY

Chief Executive Refused to Accede to the Request That the Union Pacific Merger Suit Be Dismissed—Visit of Railroad Lawyers to the President Not Generally Known.

St. Paul, Oct. 11.—One unexpected and somewhat sensational incident in the hearing of the Union Pacific merger suit before the United States circuit court occurred when C. A. Severance, special counsel for the government, informed the court that several of the defendants to the present action had made a personal appeal to President Taft to have the case dismissed, and read a letter from the attorney general to the president saying that a prima facie case of a violation of the Sherman anti-trust law had been established. This visit of the railroad lawyers to the president was not generally known until the letter was read.

Mr. Severance interrupted his own argument on the relations existing between the Union Pacific and Southern Pacific roads, prior to the alleged consolidation, to read the letter.

"I wish here to state," said Mr. Severance, "after the testimony in this case had been taken, that Judge Dunne, Mr. Loomis and others, representing the defendants, went to the president and asked him to have the case dismissed on the ground that the facts did not state a cause of action."

"Is that in the record?" came in chorus from the railroad lawyers.

"No," answered Mr. Severance. "I am going to read from the report of the attorney general—after the defendants have presented their arguments. The fact of such a visit is not denied."

## Admits Visiting the President.

"Yes, we did do that," said Judge P. F. Dunne, chief counsel of the Southern Pacific. "We thought the president should order a dismissal."

"What is the legal significance of this letter?" inquired Judge Adams. "Does the attorney general appear in this case? What do you expect us to do with it?"

"All I expect," replied Mr. Severance, "is that as an official opinion, based on the record, that it will be treated with respect."

Judge Hook said that as the opinion of a man not a party it might be worthy of consideration and requested that it be read.

After the conference of the railroad lawyers with the president the latter turned the matter over to Attorney General Wickersham. The letter from Mr. Wickersham to the president sets forth under twelve heads the reasons why in his opinion the case should not be dismissed. It was read in court.

"It is a good argument," said Judge Adams at the conclusion of the reading, "but if it is given to influence my decision in this case it is not good."

Speaking to Mr. Severance, Judge Van Devanter said: "I see nothing in it that you have not already said."

The judges took a copy of the letter with them when they retired at adjournment.

The argument of Mr. Severance occupied the entire day and will be resumed.

# COMMENDABLE ACTION

The action of the city council in promptly accepting the Stoner proposition last night to furnish current for power and light is commended on all sides, and it is hoped that the formalities of drawing and signing the contract will be done speedily and actual work will begin at the earliest possible moment. This action of the council is the more appreciated because of the hopeless deadlock that seemed to prevail at the last meeting and those councilmen who put aside personal preference and yielded to the judgment of their constituents in favor of the Stoner proposition, are especially to be commended. Now let all pull together for a speedy installation of the new service.

# ST. CLOUD NORMAL 3 BRAINERD HIGH 0

# High School Team Plays a Great Game at St. Cloud on Saturday Afternoon

# FIRST ONE OF H. S. SEASON

# Brainerd Holds Down Heavy Opponents to One Lone Place Kick

In the opening game of the high school season the St. Cloud Normals defeated the locals by the score of 3 to 0, Saturday afternoon at St. Cloud. The game was a stubborn one from whistle to whistle, and the light Brainerd team surprised their heavy opponents by their stubborn defense and their tricky offense. And it was not until the last quarter of the game that Capt. Quicksted of the Normals kicked a goal from placement.

The game was one of the most stubborn ever played on a St. Cloud gridiron and the large audience was kept especially interested by long runs and brilliant tackles.

The entire Brainerd team played a remarkable game, but the star of the game was "Happy" Alderman, who gained more ground than any other man, running back punts in great style and being a terror on defense. Twice the Normals succeeded in passing the Brainerd line and it looked as if they would score, but "Happy" who plays back on defense nailed the runner both times.

Trent, Day, Purdy and Mahlum played good ball behind the line, getting the plays off fast and making consistent gains, while Kirk Smith played a strong game at right end, making several gains on forward passes and criss-crosses.

The line-men all played hard and generally succeeded in stopping the heavy St. Cloud men. Slipp at center played a fine game, passing the ball in perfect style and getting several St. Cloud men behind the line, while Brady and Burgreen took care of the tackles in creditable style. Darling and Ford worked hard at the guard positions and always held their ground. For the Normals Quicksted and Marswick played the best game.

The boys were well treated and were complimented on their showing against their heavy opponents. The locals will probably play at home next Saturday, Wadena or Staples being the opponents.

# Reaching the Ton

in any calling of life, demands a vigorous body and a keen brain. Without health there is no success. But Electric Bitters is the greatest health builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work. "After months of suffering from kidney trouble," writes W. M. Sherman, of Cushing, Me., "three bottles of Electric Bitters made me feel like a new man." 50c at all druggists. tts

# MORE REFUGEES ARRIVE

Relate Their Awful Experience—Came to Brainerd on Early Morning Train

Refugees from the great fire zone of northern Minnesota continue to arrive in the city and pass through to their respective homes.

At the depot today were Mr. and Mrs. H. M. Evenstad and four children and Mrs. Gilbert Mesna and three children, all of Baudette. The fires are still burning, they said. They left Baudette Friday evening in freight cars and were taken to Rainy River, leaving Saturday afternoon for International Falls and arriving at Brainerd this morning.

William Rogers and family, were reported safe. Mr. Rogers was a former employe of the Dispatch. They lost their home. Mrs. Rogers is at present in Bemidji.

J. A. Stopp and family, formerly of Brainerd, who had a homestead near Baudette, have not been heard of.

Knute Nelson, a brother of Secretary William Nelson, is safe. The family are expected to come to Brainerd.

This morning's special relief train was passed by the noon passenger at Backus. Hines station was in danger last night. Kellher is out of danger.

# Humiling a Lawyer.

A prominent Indianapolis lawyer tells a story of a letter he dictated to a new stenographer to a client in Cincinnati. The client, a new one, had asked his opinion as to certain business relations here. He dictated it, this:

"Dear Sirs—Yours of the 6th inst. at hand. My first blush opinion as to the matter," etc.

The new stenographer wrote the letter and submitted it to the lawyer. Since she was a new stenographer he read the letter with care—to his everlasting relief. She had written it:

"Dear Sirs—Yours of the 6th inst. at hand. My first gush of opinion as to the matter," etc.—Indianapolis Star

# COUNCIL ADOPTS THE STONER PLAN

By a Vote of 7 to 2 the Stoner Proposition is Eventually Carried

TEMPORARY PLANT VOTED DOWN

It Has Taken Six Months to Reach Present Status of Light Question

Every seat was taken, the aisles were crowded and people filled the halls and the city clerk's office last night at the special meeting of the council in the council chambers. There were present Aldermen Henning, Kjellquist, Cardie, Robertson, Paine, Zakariasen, Drexler, Dieckhaus and President Twohey. Alderman Gardner was still in Ireland. The call for the special meeting was read by the clerk, which stated that the mayor had called this special meeting for the purpose of considering and taking action on the power question. Alderman Zakariasen, seconded by Alderman Drexler, moved that the vote on the Stoner proposition be reconsidered.

Alderman Henning, seconded by Alderman Kjellquist, moved that a message from the mayor be read before a vote was taken on the Zakariasen motion. This was acceded to and the clerk read the mayor's message, as follows:

Brainerd, Minn., Oct. 10, 1910. To the Honorable City Council: Gentlemen:—

Acting on the suggestion of the Editor of the Daily Dispatch, I have called this special meeting in hopes that you may take some definite steps toward securing power for electric motors and lighting purposes. Owing to the fact that the N. P. Ry. Co. may not furnish us with current after Nov. 1st, it behooves you to take immediate action.

I would suggest that you proceed to install a temporary steam plant, such as suggested by Mr. R. B. Smart in the minority report submitted to you at your last meeting.

In order to expedite matters I have secured Mr. E. Marshall of the Toltz Engineering Co., of St. Paul, who is here with us tonight. He will submit to you an estimate as to cost, etc., required to install and equip the Parker power house ready for service. I understand that this work or station can be made ready for service in about two weeks' time with an expense of about \$2700.00.

With this station in operation we will be able to provide the current for the city, except for a few hours in the evening, during the so-called peak load, and I am credibly informed that this will be taken care of by the N. P. Ry. Co. until such time as the city can make permanent arrangements. If necessary the Parker power house can at a nominal cost be so equipped that it will supply all the current required by the city.

In either case it will mean a saving to the city of from \$500.00 to \$800.00 per month over and above the present rate now paid the N. P. Ry. Co.

In hopes that you will act upon these suggestions, I remain, Yours respectfully,

A. Ousdahl, Mayor.

On motion the communication was accepted.

Mayor Ousdahl asked the council if they would hear Mr. Marshall and introduced him. Mr. Marshall spoke briefly regarding his proposition.

Alderman Zakariasen took the floor and spoke at great length urging the council to take action on his motion. He did not wish to hear any more propositions or suggestions. He wanted a vote on the Stoner matter.

Alderman Henning and Zakariasen then had a parliamentary battle regarding the priority of motions. Alderman Paine said Alderman Zakariasen's motion was a new motion and entitled to precedence.

A vote was then taken to reconsider the Stoner proposition as voted on at the last meeting. The vote stood:

\*\*\*\*\*

To Reconsider Stoner:

\* Cardie  
\* Robertson  
\* Paine  
\* Zakariasen  
\* Drexler  
\* Twohey

\*\*\*\*\*

Against Reconsideration

\* Henning  
\* Kjellquist  
\* Dieckhaus

\*\*\*\*\*

There being six ayes and three nays the motion to reconsider was carried.

Alderman Henning moved that a communication from Mr. Marshall be read which carried.

To the mayor and city council of the city of Brainerd:

I propose to furnish labor and necessary material for putting the machinery in the building known as the old street railway power house in proper running condition and installing certain new machinery therein to make a complete plant for the generation of 3 phase, 2300 volt alternating current up to the capacity of 100 kilowatts for the net sum of \$2700.

The building now contains two boilers, one engine, a feed water heater, a boiler. The engine is not now on its foundation but must be located thereon and considerable amount of repair work done in order to put it into serviceable condition. A deep well is located just outside of the building and it is proposed to utilize it for boiler feed purposes. A concrete tank will be constructed in the ground near the present well for purposes of water storage. A pump house will be built over the well for the protection of a motor and pumping machinery. A new generator will be purchased together with an exciter and switch board. This proposal does not contemplate any wiring for lighting in the building nor the necessary changes in the pole line. This work to be done by the city. I propose to put the plant into thoroughly operating condition and will give the work my personal attention until satisfactorily completed.

E. MARSHALL.

On motion, the communication was placed on file.

Alderman Henning presented the following resolutions for adoption:

"Resolved by the city council of Brainerd, Minn., that the Water and Light board be and it is hereby instructed and authorized to install a temporary electric power plant according to the plans and proposals of Engineer E. Marshall now on file and at a cost of not to exceed Three Thousand Dollars."

The vote stood:

\*\*\*\*\*

In favor of Temporary Plant:

\* Henning  
\* Kjellquist  
\* Against Temporary Plant  
\* Cardie  
\* Robertson  
\* Paine  
\* Zakariasen  
\* Drexler  
\* Dieckhaus  
\* Twohey

\*\*\*\*\*

The vote being seven against the installation of a temporary plant and two in favor of it, the resolution was declared lost.

Alderman Zakariasen then introduced the resolution for the adoption of the Stoner contract, the contract to be published in the papers and copies to be sent the Water and Light board, aldermen and mayor.

And then at the end of six months discussion, opinions, arguments and contentions, the council took a decisive vote on the momentous proposition, as follows:

\*\*\*\*\*

In Favor of Stoner Contract:

\* Cardie  
\* Robertson  
\* Paine  
\* Zakariasen  
\* Drexler  
\* Dieckhaus  
\* Twohey

\*\*\*\*\*

Against Stoner Contract

\* Henning  
\* Kjellquist

\*\*\*\*\*

The vote being seven in favor and two against, the Stoner proposition was declared carried.

Alderman Cardie was asked by Alderman Henning to explain a statement recently published in the Brainerd Dispatch over Cardie's signature to the effect that Cardie favored municipal ownership but that Cardie wished to tie up things when he saw crooked work.

Alderman Cardie then said the statement published was a misprint.

The East Brainerd bridge was reported in bad condition and on motion, the matter was referred to the street committee.

On motion the council adjourned.

## QUINN SEIZES FISH

Game Warden Seizes Three Barrels of Fish Illegally Shipped to Minneapolis

Game Warden James M. Quinn yesterday seized three barrels of fish alleged to have been illegally shipped.

In one consignment were two barrels loaded mostly with pike and sent by Weber & Hill, of Pine River, to the Canadian Fish Co., of Minneapolis.

The other shipment was one barrel, 200 pounds of pike, not properly labeled and sent by Amos Chambers of Emily to the Balt Packing Co., of Minneapolis.

Seven other barrels of fish passed through Brainerd yesterday on their way to the twin cities. The fish seized were sent by Game Warden Quinn to the state game and fish commission at St. Paul.

## Notice

Esteemed Archer:—

You are requested to attend lodge on Wednesday evening, October 12th at 7:30 sharp, as the grand officers will be present and will address the open meeting which will follow at 8:30. Come and bring a friend.

Fraternally yours,

G. N. GRANT, Foreman.

Attest: CHS. RISK, Sec. 109t3

## PLANT TO PURIFY WATER

A Hypo-Chloride Plant to be Installed by Water and Light Board

RECOMMENDED BY PROF. BASS

Two Chemists to be in Charge—Typhoid Avoided by Purifying River Water

The Water and Light board will shortly install a hypo-chloride plant at the pumping station which will purify the river water and thus avoid much of the typhoid fever prevalent at various times in the city.

Prof. F. H. Bass, engineer in charge, of the state board of health, has been in the city and consulted with the Water and Light board relative to the installation of the plant. A foreman will arrive this week to take charge of the construction work. It will not cost over \$400 or \$500, the chief expense being connected with running it. Two chemists will be required, and it is hoped the treatment of the water will be commenced within two weeks.

The tanks and other paraphernalia will be set in the pumping station. Thirty days will have to elapse before any appreciable difference is noticed in the quality of the water. "All water mains," said President Dunn, "will be thoroughly cleaned and flushed out."

## RELIEF TRAIN PASSES THROUGH

Special Left St. Paul Last Night With Tents and Supplies for Fire Sufferers

TRAIN GOES TO BAUDETTE

On Board Were Prominent Officials—Joined at Brainerd by Gov. Eberhart and W. H. Gemmell

This morning at about eight o'clock the forest fire relief special came in from St. Paul and switched in the yards, attached General Manager W. H. Gemmell's private car, a caboose and eight flat cars to its train of one passenger coach and two baggage cars.

A distinguished party was on board and included Adjutant General F. B. Wood, Capt. W. H. Hart, Capt. W. H. Hatcher, Major Thomas C. Clark, Attorney General Simpson, W. R. Pottgieser, L. V. Hurd, Ed. Collins, two visiting nurses, the Misses Beatrice Dolan and I. K. Karlsteen, and several newspaper men including Adolf Edsten of the Minneapolis Journal and E. W. Sloan of the St. Paul Dispatch.

The governor preceded the party to Brainerd and arrived on the midnight train. He was met by General Manager W. H. Gemmell and taken to his private car where he enjoyed a comfortable night's sleep. In the morning this car was attached to the special train and Mr. Gemmell accompanied the relief party.

The train from Brainerd out was in charge of Conductor Jerome S. Cyer, Engineer J. O. Saltee and Fireman William Krause. The special carried tents, supplies and other needed things for the fire sufferers.

The flat cars will be loaded with ties to be used in case it is necessary to bridge over burned track.

## TO HELP FIRE SUFFERERS

M. E. Epworth League Will Collect Clothing and Supplies to be Sent Relief Committee

## THE CUYUNA IRON RANGE

Prospects Look Good to the People for Increased Activity on the New Iron Range

PEOPLE LEAVING THE MESABA

For the New Fields in Crow Wing and Adjoining Counties—New Towns Show Prosperity

Opportunities, a mining paper of Duluth, contains the following news items regarding the new iron range which has been opened up in this vicinity:

The Mesaba range is losing some of its best business men who are locating on the Cuyuna. Patrick Kealey, a pioneer Eveleth grocer, has already left for Cuyuna to embark in the hardware and undertaking business. Henry Masterson, an Adams mine location resident for the past twelve years and an employee of the Oliver Iron Mining company for the past nineteen years, will occupy the building erected by Max Greenburg.

There will be no ore shipments from the Cuyuna Iron Range this season owing to the Soo line not being in condition to handle the ore on the dump piles estimated at 100-000 tons.

The plat of the new town of Iron-ton, Cuyuna Iron Range, was filed at the court house at Brainerd on Sept. 7th. The plat covers the northwest quarter of the southwest quarter of section 11-46-29, lying adjacent to the Mattson forty in section 10, which has been taken over by the Rogers-Brown Ore company, and on which a concrete shaft is to be sunk by the New York Foundation company. This forty is supposed to contain the largest body of high grade ore yet discovered on the Cuyuna iron range in any of the entire Lake Superior iron district and when the ore body is opened up an army of men is to be employed in its development, which will make Iron-ton one of the very busy towns on the Soo line.

George H. Crosby, of Duluth, paid Louis Carlson \$15,000 cash for seventy acres of his homestead just east of Crosby for iron mining. No development work has been done. This will give an idea of iron land values around Crosby which is booming steadily. Contracts for fifteen new houses in Crosby during September, were made.

Mayor Lindbergh, of Crosby, has been notified that H. F. Pierce of Bay City, Mich., had accepted the terms of the water and electric light franchise for Crosby and that work will begin at once.

One of the best displays of iron ore ever made was that from the Cuyuna range at the Conservation Congress held in St. Paul, Sept. 5th to 10th. In connection with the congress an elaborate exhibit of the mining industry of this state under the direct supervision of John Uno Sebenius of Duluth, general manager of explorations for the Minnesota mines of the United States Steel Corporation. The Cuyuna iron ore district was represented by special maps illustrating its geological conditions, and supplemented with drill cores of the different formations and by samples of ores taken from the different existing shafts. Carl Zapffe, geologist for the Northwest Improvement company, and Salesbury Adams of Deerwood, demonstrated the Cuyuna exhibit.

### CRICKETS CHINA'S "PUGS."

Gladiators Train on Honey and Fight to Death.

A Chinese diplomat paced in robes of lemon colored brocade the board walk at Atlantic City.

"You would be interested to see," he said, "a Chinese cricket fight. It is an institution with us, like bullfighting in Spain or baseball here. The crickets are trained like little Jack Johnsons. Their diet is honey and boiled chestnuts. With prods and shoves they are kept on the jump—exercised—long hours daily. If they get sick they are fed with mosquitoes, a great stimulant.

"The cricket pit is a low tub placed on a table. The crickets are carefully weighed in—for there are heavy and middle and welter classes—and they are dropped into the ring. They rush on one another with loud chirrups. They fight to a finish. Sometimes the fight lasts five minutes, sometimes an hour. Its end is always the same—the death of one of the contestants."

The diplomat smiled.

"Now, if your prizefights," he said, "only ended in that way, then there could be no talk of dope, phoney business and corruption, could there?"

It Looked Inviting.

I was visiting a magistrate in Kerry county when a stalwart fellow was brought in a prisoner, charged with nearly killing an old baldheaded man, whose head was a bloody mass. "What was it this fellow did to you?" asked the magistrate. "Nothing." "Then what made you do it?" "Well, I'll tell yer honor God's truth. Ye see, I came late into the fair, luck was agin me, for all the fighting was over, so I was strutting about looking for some boy to cross a stick wld, and I saw this poor man's bald head poked out of a slit of a tent that he might cool it, and it looked so inviting that for the soul of me I couldn't help hitting the blow."

### SETTLERS WANT MORE TIME

Those on Buford-Trenton Project Appeal for Delay.

Buford, N. D., Sept. 15.—Water users under the Buford-Trenton government irrigation project adopted resolutions similar to those adopted by the Yellowstone Water Users' association of Montana at a meeting held in this city, by reason of the cancellation of certain water rights by the federal authorities.

The principal purpose of the meeting was to determine what action might be advisable in restoring to landowners their water rights. The season has been a poor one, and in order to alleviate the situation the water users are hopeful of securing new rulings from the government with reference to the payment of taxes for the water rights and for the work of construction, which seemingly has cost much more than original estimates allow for.

In December a payment is due the government on the lands, and it is to defer the levying of this assessment that landowners are holding meetings. They favor a graduated plan of paying, that is, they would have the assessment for 1911 cover an amount just large enough to care for the operating expenses, and then in the following years they would be willing to meet an increased assessment which would pay for the construction work.

Settlers in the irrigated district came with but a small amount of capital. They cannot mortgage their lands, and thus the only manner in which they can secure money is on chattels, on which they must pay 12 per cent.

One thing the settlers hope to accomplish is that of evading litigation of any kind, inasmuch as any measures of that nature would entail additional expense, which would only serve to increase the hardships under which many are now laboring.

### A True Friend.

Your friend is the man who knows all about you and still likes you.—Philistine.

### DIRTY KIDNEYS CAUSE BACKACHE

A Few Doses Taken Now Will Clean and Regulate Your Kidneys and You Feel Fine

### NO MORE LAME BACK MISERY

Every Dispatch Reader Knows the Consequences of Neglecting Out-of-order Kidneys

The blessed relief that follows the use of Pape's Diuretic is a revelation to sufferers from backache or kidney, bladder and urinary disorders.

The time to cure kidney trouble is while it is only trouble—Before it settles into Dropsy, gravel, diabetes or Bright's Disease.

Pape's Diuretic acts at once upon the kidneys, bladder and urinary system; cleanses, vitalizes and regulates these organs, ducts and glands and completes the cure within a few days. The moment you suspect any kidney or urinary derangement, or feel a constant, dull, backache or the urine is thick, cloudy, offensive or full of sediment, irregular of passages or attended by a sensation of scalding, you should begin taking Pape's Diuretic as directed, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure.

Misery in the back, sides or loins, sick headache, inflamed or puffy eyelids, nervousness, rheumatism and darting pains, heart palpitations, bilious stomach, prostrating trouble, dizziness, sleeplessness, listless, weak, worn-out feeling and other symptoms caused by inactive, sluggish kidneys simply vanish. Uncontrollable urination (especially at night) smarting, discolored water and all bladder misery ends.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, O., who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

### OLD TURKS FOUND GRAFT IN REDUCTION OF CENSUS.

Governors Cut Taxes Paid to Sultan on Per Capita Basis.

The new Young Turk government has found out some very remarkable things in its work of reformation. One of them is that there are far more Turks than are accounted for in the official statistics.

The latest reference books, which are based on Turkish official figures, give the population of European Turkey as 6,130,200, but the census which is now being taken indicates that these figures are far too small. The discrepancies in the country villages, especially in Albania, are amazing.

The city of Djakova, for instance, which is down for 21,000 inhabitants, now appears to have not less than 80,000, and the population of the vilayet of Kossowa is more than twice as great as it has been given. It may be taken for certain that Turkey in Europe, instead of 6,000,000, has really 10,000,000 inhabitants or maybe more.

The difference is easily explained. Taking Djakova as an example, the corrupt old governors only paid into the imperial treasury the taxes on 21,000 people, the number they certified as "official," and they coolly pocketed the taxes on the remaining 60,000.

This sort of graft went on under Abdul Hamid for years and incidentally explains Turkey's everlasting financial troubles. The next Ottoman budget may be a surprise to the world at large.

### ANCIENT SUBMARINE FOUND.

Confederate Experiment Taken by Dredger in Mexican Gulf.

During recent dredging operations off the coast of New Orleans the hull of an ancient submarine was found. The craft is about sixteen feet long, five feet deep and four feet wide. It has two openings, the larger one big enough to admit a man, a propeller shaft at the narrow end and the remains of two fins. The propeller blades and the motive machinery have disappeared.

The submarine probably dates from the time of the civil war, as the Confederates are known to have had two submarines.

Gas Heating Values Studied.

In Birmingham, England, particular attention is being paid to the calorific or heating value of the gas furnished for industrial purposes. It has been found with high pressure gas that ten pounds of copper can be melted for less than 2 cents.

Mexican Commerce Improves.

The increase in the coastwise shipping in Mexico during the last ten years amounts to 77 per cent in the tonnage.

Spiders.

Most spiders have poisonous fangs, but few of them are dangerous to human beings.

### The Lost Umbrella.

"I have been coming here for my lunch for years, but never again," said a man to the head waiter of a downtown restaurant recently. "Sorry," began the waiter. "Sorry nothing. I left the umbrella here not five minutes ago, there was no one near our table, and the waiter must have seen it." "If we find it?" "Find it? It is found. I tell you, and I'll have it now or you'll never see me here again."

The man, flushed with excitement, was walking away when he was hailed by a man who had entered by the rear door. "Say, Frank, is this your umbrella? I picked it up when we finished lunch. Glad you're still here."

"Here, but not still," the head waiter whispered. "The umbrella has been found, but our customer has been lost for a few days. He'll be ashamed to come in for a little while."—New York Tribune.

Gone For Good.

Some folks in foreign lands have their own way of determining whether their relatives who have migrated to this land of ours have become hopelessly Americanized. One old lady in Germany reached her conclusion in a way that can be appreciated only by those who know the type of the German butter dish deep as a bowl, and the German reverence therefor. Last week her granddaughter in New York received this sad lament:

"You will never come back. You are lost to us. Hais (a cousin) arrived here from New York on Monday and reports that you have even given up our deep German butter dishes and are using those shallow little plates that Americans like."—New York Times.

### HOPE.

Hope, like the brilliant stars of evening, shines the sweetest and the brightest when life seems the gloomiest and darkest.—Dr. O. Winslow.

### DON'T BE BALD.

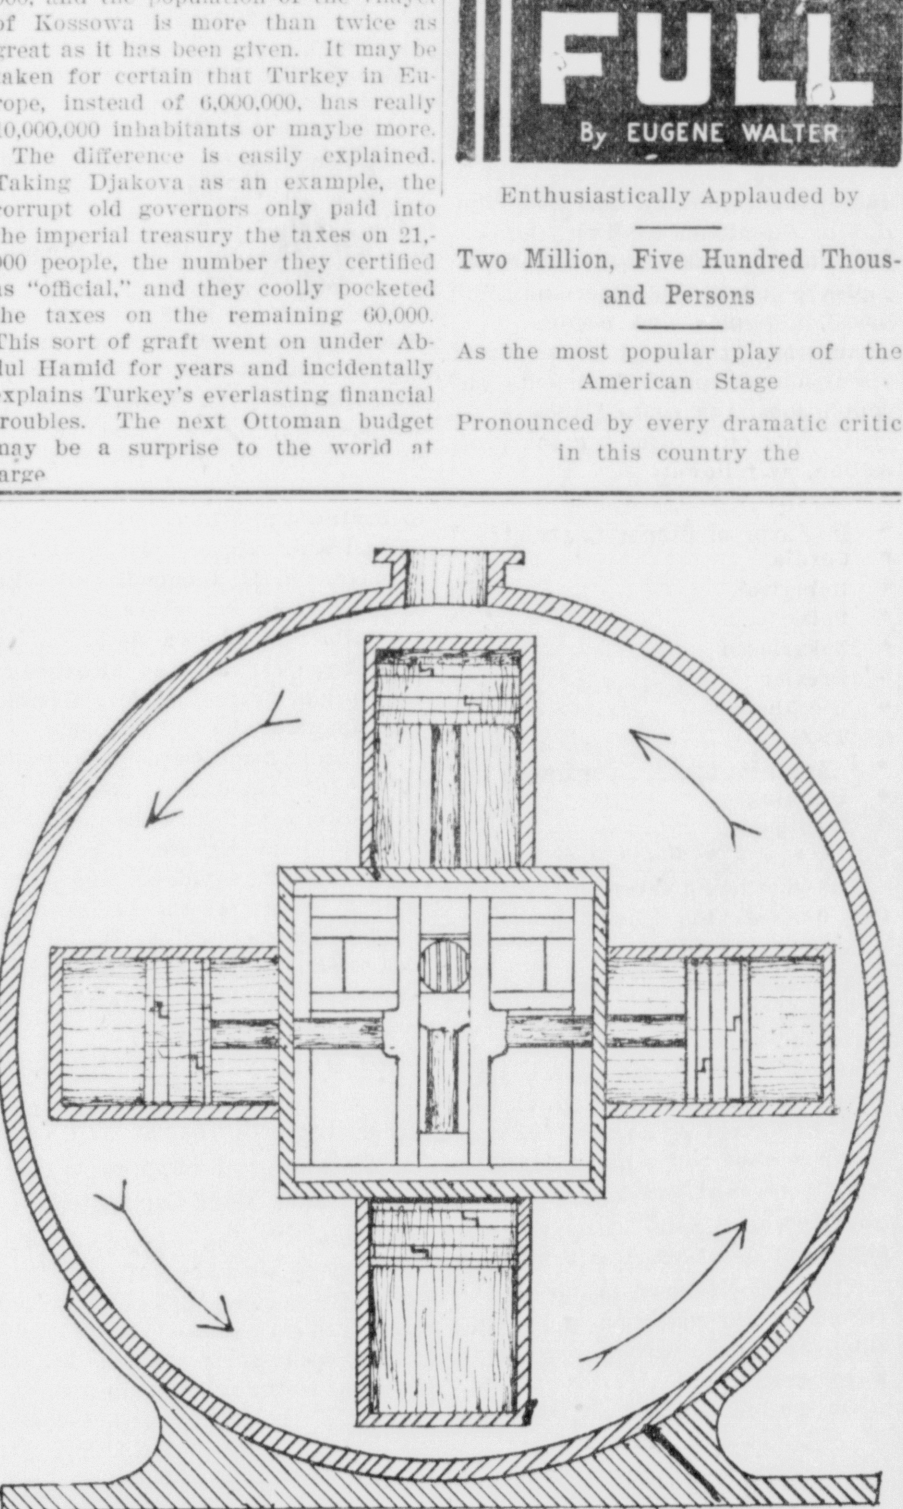

Nearly Anyone May Secure a Splendid Growth of Hair.

We have a remedy that has a record of growing hair and curing baldness in 93 out of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so certain Rexall "93" Hair Tonic will cure dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny paid us for it in every instance where it does not give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or gum the hair. Two sizes, 50c. and \$1.00. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Rexall Store.

—Johnson's Pharmacy

### THOMPSON'S ROTURBINE ENGINE

This engine has no reciprocating parts, no vibration and no center. It has the same power in every degree of the circle and is the only ROTURBINE ENGINE in the world that will stand the search light of investigation.

The public, and especially the shop men, engineers and machinists are invited to examine and investigate this wonderful invention which the inventor, W. H. Thompson, Jr., will have on display for one week only at 422 North Seventh street. He will be glad to meet all and explain its many advantages.

A Twenty Five Horse Power Engine

of the ROTURBINE type occupies a space of 12 by 24 inches. For speed, endurance, economy and small space, the ROTURBINE stands in a class by itself.

5,000 shares of stock have been set aside for sale at 20 cents per share. When this block is sold stock will advance to \$1.00 per share. Mail orders promptly filled.

Renews

### Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

### PERFECTION

SMOKELESS OIL HEATER

Absolutely smokeless and odorless

Is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font.

It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly unscrewed for reworking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the
